**INQUIRY INTO CURRENT AND FUTURE PUBLIC
TRANSPORT NEEDS IN WESTERN SYDNEY**

Name: Mr Jeevan Shrestha

Date Received: 22 August 2023

I live in Edmondson Park in South West Sydney. The new airport is being built in Badgery Creek which is 20 min from Edmondson park, Casula, Glenfield, Prestons and lots of Suburbs around. But if we need to take train to new airport, it will be nightmare to go all the way to St Marys and take metro. It will be nearly 2 hours train travel for covering 15 Km distance. I strongly urge the NSW government to either link the existing train line form leppington to Aerotropolis station or extend the metro to Leppington Station. Do not keep Leppington to Aerotriopolis as missing puzzle piece.
