Hello,

My submission is related to traffic issues in Carlingford (2118). Due to good schools there are lot of apartments were and being constructed without any planning of road and retail Infrastructure. The primary school Carlingford West has now around 2000 students (may be the highest in NSW). There are lots of new residential buildings coming up right on the Pennant Hills road, which is already congested. I'm not sure who approved the planning but this a case of sheer carelessness. What has been done in the past can't be undone. So I request to take following measures:

1. Plan new schools.
2. Connect Carlingford to Epping station through train.
3. Plan intermediate solutions to ease out pressure on the infrastructure.

I know the plans take years but I'm hopeful things will improve before I become a grandfather.

Thanks and apologies for some not so pleasant comments.
