We are deep in climate crisis and need to decarbonize as fast as possible.

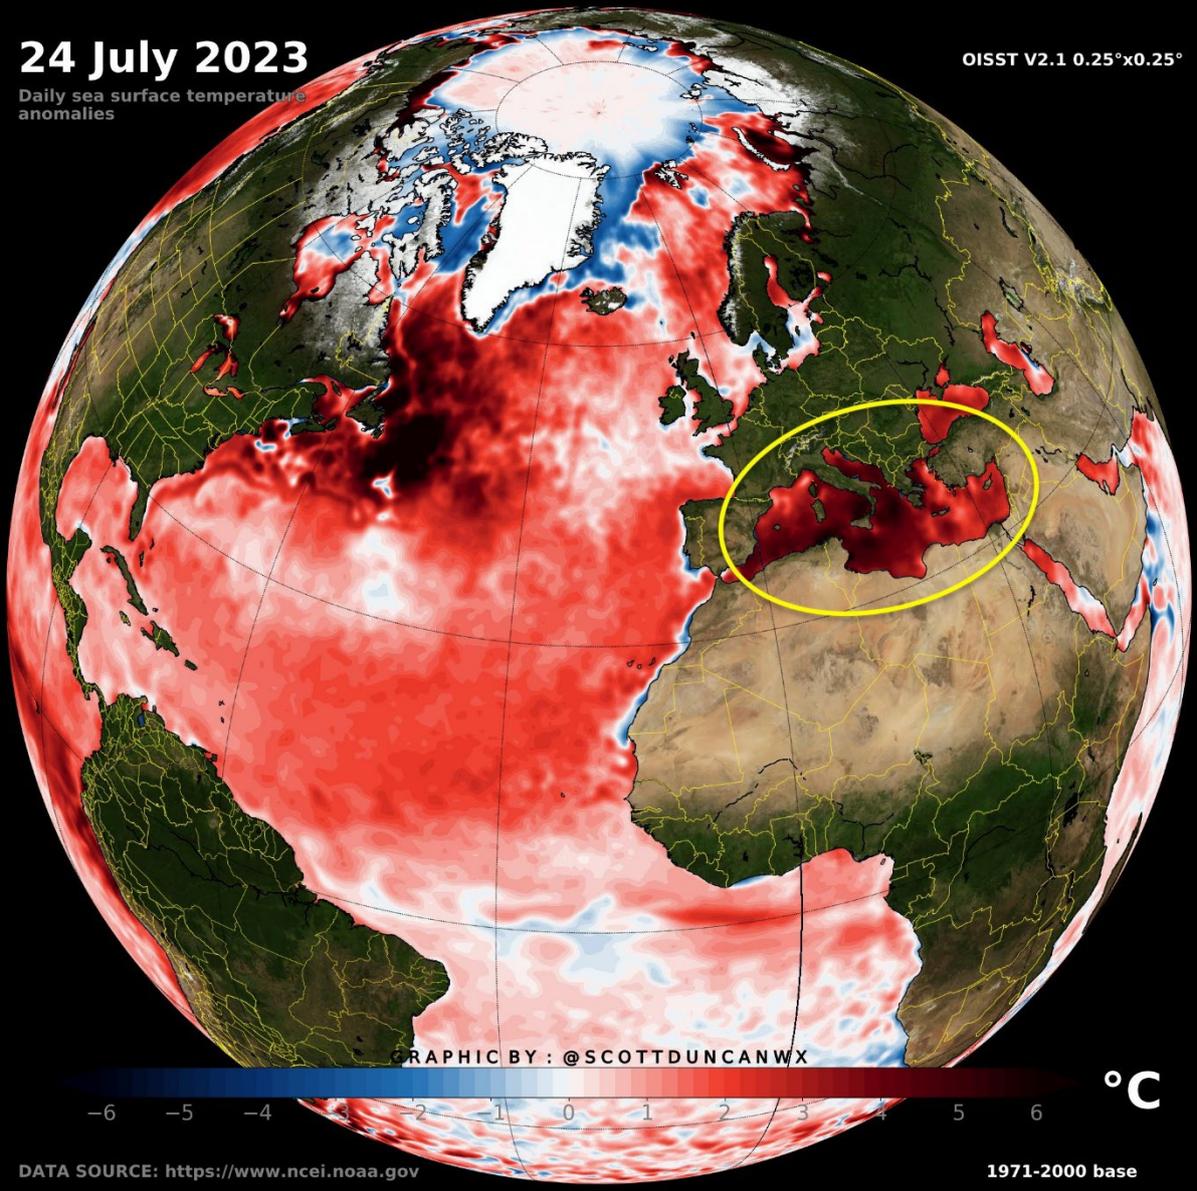

Burning fossil fuels are wrecking the planet, we are living an unsustainable lifestyle on finite planet. <https://twitter.com/i/status/1696145969908207922>

2023 the Northern hemisphere has had raging fires, flash floods and dangerous landslides impacting their populations. Australian Scope 3 emissions are impacting the climate.
