**INQUIRY INTO PROPOSED AERIAL SHOOTING OF
BRUMBIES IN KOSCIUSZKO NATIONAL PARK**

Name: Miss Chloe Gladman

Date Received: 12 October 2023

Leave the brumbies alone, they have been for years and they have not been a problem until now. Kosciuszko will never be the same or even tourists favourite place anymore if you keep killing these damn horses. These beautiful brumbies don't deserve this shit at all. It makes me sick that your killing the mothers who still have a foal in there tummies still that aren't even born. These damn foals need their mothers to be able survive and your killing them for the bloody numbers there are which is absolute bullshit. It is also so bloody wrong to leave there bodies for everyone else to see when their hiking around there and their bodies left to rot and smell.

There is no need for these damn animals to be shot and then to let suffer, that's just plain cruelty right there and these beautiful animals don't need be slaughtered for the numbers that's also just cruel and no need. People do not need to see that when their hiking up there, that will turn tourist away and make them never come back ever again.

The only reason why I love going over the mountains is to see these beautiful brumbies and to see what there up too.

HOW WOULD YOU LIKE IT IF THE PEOPLE WHO ARE DOING ALL THIS SHOTTING AND LETTING THESE POOR CREATURES TO SUFFER GET SHOT AND THEN LEFT TO SUFFER?? AND LEFT THEIR BODIES TO ROT AND SMELL FOR EVERYONE TO SEE!!!!!!

STOP KILLING AND LETTING THESE POOR ANIMALS TO SUFFER WHEN THEY HAVE DONE NOTHING WRONG!!!!!!
