**INQUIRY INTO CLIMATE CHANGE (NET ZERO
FUTURE) BILL 2023**

Name: Ms Jennifer Cuthbertson

Date Received: 21 October 2023

I partially support the NSW Climate Bill. However I consider that it needs to additionally consider proposed coal mine expansion in NSW. The Bill should also be accompanied by accelerated action to support coal-affected communities to diversify their economies and create new jobs that are not reliant on fossil fuels, including the creation of statutory authorities to facilitate skills training and new industries.
