This beautiful district offers an abundance of opportunities for investment but this mine is the wrong kind. Please review this decision. It is wrong on so many levels. The community consultation was tokenistic and the impact on local roads, services and waste facilities has not been properly assessed, particularly on Lue Tip. Lue School is a thriving small school and an important part of the local community and the mine is way too close. As locals we insist on the current government to do due diligence and reassess this decision so our beautiful Mudgee district does not become a wasteland.
