**INQUIRY INTO CURRENT AND POTENTIAL IMPACTS OF
GOLD, SILVER, LEAD AND ZINC MINING ON HUMAN
HEALTH, LAND, AIR AND WATER QUALITY IN NEW
SOUTH WALES**

Name: Name suppressed

Date Received: 20 August 2023

Partially
Confidential

I strongly oppose the mining of lead in the mid western region of NSW.

Primarily on environmental grounds being a land holder approximately 10 kilometres from the proposed lead mine at Lue. We care for the environment and the health and welfare of our flora and fauna. We care for injured wildlife and do our very best to release them back to the wild. We have a unique environment with valleys, unspoiled rivers and beautiful mountain scapes all too precious to harm for the sake of a few non caring lead mines and operators.

The increase of heavy traffic in the area will only go to harm more of our wildlife that should happen to cross the roads.

It's up to us to do all we can to protect this beautiful country that we have the privilege to live in.

Yours sincerely

Land holder in
