Dear Ms Cate Faehrmann MLC & select committee

Re: Feasibility of undergrounding the transmission infrastructure for renewable energy projects

I would just like to send this email and state that I made a submission in the last inquiry and spoke at the inquiry.

I would like to mention that since I have also made a submission into the EIS.

And if the committee would like this I would be happy to forward that on.

This process has caused me a lot of stress and i hope the Select Committee recommends that undergrounding is the best way forward for renewable energy transmission in NSW for my family, my kids and I.

I would be happy to speak and give any evidence if needed for this current enquiry.

Yours sincerely,
Jessie Reynolds
