**INQUIRY INTO PLANNING SYSTEM AND THE IMPACTS
OF CLIMATE CHANGE ON THE ENVIRONMENT AND
COMMUNITIES**

Name: Name suppressed

Confidential

Wamberal sea wall. I strongly object to a seawall. It will cause devastation to Wamberal beach as well as impacting both Terrigal & Wamberal lagoons by way of flooding from ocean surges. It will exacerbate coastal erosion along the entire beach especially with the continual sea rises. There needs to be a new environmental impact study attended. There has been NO COMMUNITY consultation (other than beach front home owners) & any opposition by way of emails to ministers receives just a standard bland response not accepting any responsibility. I have listened to the experts- Andrew Short - a coastal geomorphologist, Angus Gordon - an eminent coastal engineer & co developer of the NSW coastal protection act. CCC is under administration & decisions of such a huge development should not be left to one person. We need to have a democratically elected council that represents the majority of the community.
