INQUIRY INTO BIRTH TRAUMA

Name: Mrs Tyne Reid
Date Received: 15 August 2023

Partially
Confidential

I have wanted to share my story as I believe this is an important topic. However, due to my ongoing birth trauma from my sons forced emergency csection last year at hospital,I am unable to write my story as it triggers my anxiety and depression. I can't even go past the hospital without having a panic attack from the psychological scars I am left with.
