INQUIRY INTO BIRTH TRAUMA

Name: Mrs Hannah Lee

Date Received: 15 August 2023

I had a traumatic situation. The doctor and midwives did not inform me of any of the situations that were occurring in my birth. None of my requests were followed my voice felt unheard and I felt bullied. I had years of trauma recovery due to this situation and I doubted myself as a mother due to this. I felt like a number, not like a person. I felt neglected and uncared for and as though no one could see or hear me.
