INQUIRY INTO BIRTH TRAUMA

Name: Ms Alice Henchion-Grant
Date Received: 15 August 2023

Partially
Confidential

I gave birth in 2011, 2013, 2016 in _____ Public Hospital. With all three births, I applied for the MGP program, and in all three I missed out. I had one c-section and two VBACs. All my births were induced and I felt like I had so many invasive internal examinations. The continuity of care in the MGP program would have made a world of difference here? The midwives in my experience were amazing and I worry about the current state of the system where they don't have enough resources to do the job they want to do. There is not enough post birth support around prolapse and birth damage.
