## **INQUIRY INTO DEVELOPMENT OF THE TRANSPORT ORIENTED DEVELOPMENT PROGRAM**

**Name:** Mr Angus Vowell

**Date Received:** 8 March 2024

---

Please don't go ahead with these sweeping changes. I don't think it will address housing affordability, Hong Kong and New York have extreme housing density and their house prices are high. Cramming people into areas without supporting infrastructure is not helpful. And losing open space, trees and space between houses or quiet streets will not drive down prices, it will just make what we have less valuable but for the same price.
