I am a retiree living in the Hunters Hill municipality. I drive along Victoria Road to the city and also travel by bus to the city at different times of the day. I have found that there is a buildup of traffic on the Gladesville Bridge which does clear after reaching the intersection at Lyons Road, Drummoyne. Although this has always been a gridlock in the 30 years I have lived in the area, my concern is now that the Gladesville Bridge traffic heading to the city appears to be slower now that the Rozelle Interchange has been introduced.
