INQUIRY INTO IMPACT OF THE ROZELLE INTERCHANGE

Name: Mrs Fiona Hilary Henshaw

Date Received: 12 March 2024

There has been a marked deterioration in traffic flow between Hunters Hill / Gladesville and Balmain. This increased traffic flow means that drivers are forced to use the bus lane which is slowing down buses. Buses to the city are now taking significantly longer meaning children are late to school and people late to work if that continues to catch the same buses they always took. Please look at the traffic flow around the Rozelle interchange.
