It used to take us 10 minutes to get from Huntley's Cove to Balmain. Now we're up to 20 to 30 minutes. My son has to take his children to Balmain for school and then try and leave to get to Darlinghurst. He can't get out of Balmain in the morning and has to try to work from his car. I noticed the traffic lights in Gladesville have been timed to slow the flow of traffic to Balmain to solve the problem. This is not a solution. There is no alternative way along Victoria Rd other than via road. Well done
