**INQUIRY INTO IMPACT OF THE ROZELLE  
INTERCHANGE**

**Name:** Name suppressed

**Date Received:** 20 March 2024

Partially  
Confidential

I should not need to advise your committee about the disaster that is the Rozelle Interchange. If any of you have tried to use it with GPS you will have found that the peak hour delays in most directions are unmanageable and the merging and demerging of traffic is absolutely dangerous.

My trip from Five Dock to Pymont at 9.15 a.m. this morning was showing '+7minutes' above the GPS estimate because of extremely heavy traffic. Needless to say I diverted to use local streets but those drivers even 100 metres in front of me were unlucky enough to be stuck in this priority traffic route as they had no escape options

What a disaster of bad planning - it needs to be fixed URGENTLY.
