

**INQUIRY INTO IMPACT OF THE ROZELLE
INTERCHANGE**

Name: Name suppressed

Date Received: 20 March 2024

Partially
Confidential

The first and least that could be done for the long suffering residents of Rozelle and immediate environs is to require effective filtering of emissions from the ventilation shafts to reduce further toxic fallout and insults to the health of local citizens.

Secondly, a regular and frequent ferry service, with all-day parking available to commuting users, from Glebe, White Bay Pyrmont (including the Fish Market) to relieve the need for so many cars to enter the Anzac Bridge.
