INQUIRY INTO IMPACT OF THE ROZELLE INTERCHANGE

To Whom it May Concern

Apart from the issues of congestion, poor traffic metering and atrocious signage, the intersection doesn't flow or work very well. It has been a massive investment and it is failing its most basic requirements. What were the KPIs for this job? It's a failure. We are paying for it and yet it has not improved our local amenity and access to roads. It hasn't solved any problems for the local residents of the inner west.
