INQUIRY INTO IMPACT OF THE ROZELLE INTERCHANGE

Name: Ms Carolyn Ienna

Date Received: 21 March 2024

I try to avoid going to the interchange as its very confusing and messy. I am an ebike rider with a disability. Everytime i go to that area now its painful to navigate not to mention the asbestos found in the parkland. because of my disability i cant be going everywhere to find my way to my destination which has been made 10 times worse by this new interchange. signage is confusing. changing of the routes is confusing. surfaces are dismal(uneven, rocky etc). i am having to ride up to 1 km out of my way to avoid the mess. the hills are super steep there also. not all cyclists are able bodied.

Carolyn Ienna
