Confidential

This is so sad not only for me but for Sydney. With no consultation with the people (contrary to the governments own guidelines) it will change the face of Sydney. Roseville station is already overloaded during peak times, the schools are full, the tee canopy will be demolished, it is difficult to access the suburb at peak times (the queues to get out, ie turning into hill street from lord street often extends half way down lord. It means there is nowhere safe (ie to protect our lifestyle) left to live in Sydney.
