INQUIRY INTO IMPACT OF THE ROZELLE INTERCHANGE

Name: Name suppressed

Date Received: 21 March 2024

Partially
Confidential

To

Dear Members of portfolio committee (Rozelle Interchange + Asbestos)

NSW PARLIAMENT

1. Please fully investigate URGENTLY the **impact of local BALMAIN and ROZELLE congestion** from the Interchange, as well as the **cause of asbestos** detected in the **Rozelle Parklands**.

2. As a result, our lives have been de-valued. Please urgently protect us and all local residents from the severe consequences (already known to you) of the existing interchange design. It demonstrates disrespect of great magnitude for the value of our lives and a breach of public trust of great magnitude.

3. The extensive existence of asbestos on public land as now known is a sad manifestation of how the use of public money over such a great period of time can lead to personal enrichment at the expense of public safety. A tremendous breach of public trust.

(Plus three adult family members)
