## **INQUIRY INTO IMPACT OF THE ROZELLE INTERCHANGE**

**Name:** Pauline Corrigan

**Date Received:** 24 March 2024

---

To Whom It May Concern, I have a number of issues I would like to raise in relation to the interchange.

Firstly, I have grave concerns about the asbestos in the mulch and the cost for removing the asbestos. Can you please clarify who has finally deemed to be responsible for the asbestos disaster and who is paying for the cleanup.

Secondly I would like to raise the traffic congestion. This continues to be a major issue along Victoria Rd towards Iron Cove bridge. What is being done to ease this traffic congestion at peak hours?

Thirdly there seems to be a lack of shelters at bus stops. Some stops have them and others don't. Currently the Callan Street bus stop has no shelter. As a fair skinned person with a tendency for skin cancer due to the sun, I'd like to wait for my bus under a shelter. Can you clarify if the Callan Street bus stop (and all others) will have shelters built to protect from sun and weather ?

Lastly, toll charges. As with all sales of NSW roads to large corporations, there has been a corresponding increase in road tolls. Please advise what is being done to ensure no increase in the tolls for the rozelle interchange ?

Yours sincerely

Pauline Corrigan
