**INQUIRY INTO IMPACT OF THE REGULATORY
FRAMEWORK FOR CANNABIS IN NEW SOUTH WALES**

Name: Robin Dennerley

Date Received: 8 May 2024

Cannabis should be legal because you are just making a product for criminals to sell otherwise, its illegal now and how big is the industry? Plus there not paying tax which could be used to pay for things like tax cuts or road or anything else.

Cannabis should be legal also as it should be the individuals right to choose what they do to there body, if you beleive in the freedom of the individual to choose you should be for this important reform.

Another reason Cannabis should be legal is we need to end the drug war because its turned into and eternal war, when will it be won? The quick answer is it won't. Just like the Soviet Union tried to keep out blue jeans and the USA tried to keep out alchol they both failed but even they were sensible enough at the time to recognise that failure and end those wars on people who just want what they want.

So the question is are you going to be on the right side of history or are you going to continue to practice the cruel and unusual punishment of people just trying to be free and unshackled from the judgement of a few who try impose there beliefs on others who do not share those beliefs. After all I think religious people are mentally ill believing in something they have no evidence exists, should I impose my judgement on them and ban religion?

Thank you for your time
