

**Submission  
No 41**

**INQUIRY INTO IMPACT OF THE REGULATORY  
FRAMEWORK FOR CANNABIS IN NEW SOUTH WALES**

**Name:** Mrs Veronica Fallon

**Date Received:** 9 May 2024

---

We need cannabis for pain control. We, my husband and I, both have Osteoarthritis in many parts of our body.

We have both had spinal surgery and still suffer from a lot of pain.

I suffer with anxiety.

We are not looking for a "high".

Currently, I am on Endone for pain. I would rather not be dependent on a morphine based drug.

Lately, I have been having hemp gummies, which is hard to find, even though they are legal in NSW.

Cannabis is great for pain relief and also helps with anxiety..we don't smoke it. It also helps with insomnia

We need this legalised.
