I am a 62 year old woman and I think cannibas should be legalised then you take away the criminal element to it . I use it for sleep promotion, anxiety and pain as I have sevear back and neck injuries as well as degenerative osteoarthritis all thru my body, I prefer to use cannabis rather than take chemicals as it grows naturally in the earth. Also if it's legalised people like me could grow their own and wouldn't have to go to dealers homes anymore where there is often heavier drugs also sold with very dubious looking people there to get them , it would make us much safer thankyou for listening
