**INQUIRY INTO IMPACT OF THE REGULATORY
FRAMEWORK FOR CANNABIS IN NEW SOUTH WALES**

Name: Mr Michael Combley

Date Received: 10 May 2024

Hi

I am an adult life long cannabis user. For the last 2 years I have been prescribed THC included cannabis by my GP. All of my adult life anxiety and depression has been a constant problem for me. Cannabis has eased these problems considerably.

The present prescription system is good in that enables access to cannabis and reduces both individual criminality and high level criminal involvement with the production and supply of cannabis

The present prescription system favours individuals who have the financial means to access GP's sympathetic to enabling access to this drug OTC

I am in favour of cannabis being decriminalised and available OTC in a controlled manner

Michael Combley, Paddington 2021
