**INQUIRY INTO IMPACT OF THE REGULATORY
FRAMEWORK FOR CANNABIS IN NEW SOUTH WALES**

Name: Mr Terence Mahony

Date Received: 10 May 2024

I have been suffering from cancer of both the leg and the brain since being diagnosed in 2000, after my reaction to immunotherapy which harmed my kidney function and damaged my thyroid. I was prescribed some chemical treatment which I took for a week which I reacted to big time so I sort other treatments after a week which made no fail sleep for long periods so again the oncology solutions failed to provide any sort of quality of life so I ordered some Dutch CBD oil which over time produce first a slowing of tumour growth and the last scan last there was no sign of the tumours I am due for a follow up in September. So i strongly support the legalisation of cannabis. And I'm sure the police will talk about the EVILS of such a move you only have to look around the world to understand that there thinking is wrong.
