

**Submission  
No 174**

**INQUIRY INTO IMPACT OF THE REGULATORY  
FRAMEWORK FOR CANNABIS IN NEW SOUTH WALES**

**Name:** Ms Madeline Kerkham

**Date Received:** 10 May 2024

---

I have worked as an RN for 50 yrs. in NSW health.

During that time I observed Cannabis products used with benefit when working with patients in outreach palliative care.

I have worked in acute mental health and was told by patients they use cannabis products to offset anxiety caused by psychosis and methamphetamine .

Cannabis products appear to not make people aggressive.

When I worked for justice health in the prison system there were many inmates serving time for using and or selling cannabis.
