**INQUIRY INTO IMPACT OF THE REGULATORY
FRAMEWORK FOR CANNABIS IN NEW SOUTH WALES**

Name: Craig McGarry

Date Received: 10 May 2024

Hello and thanks for the opportunity for me to tell a snippet of my story. I'm 64 years of age and have been dealing with the residual effects of gullian barre syndrome for 46 years and have found cannabis to be the best thing I have ever used for my condition. The cannabis laws are based on lies and corruption, cannabis had been used for thousands of years for all types of ailments, then 100 years ago a handful of corrupt industrialists, corrupted the world for their profit, it's time to right the wrong, stop ruining good people's lives simply for trying to be healthy, I have much more details to my personal journey and I'm prepared to be part of any enquiries.
