Greetings

I am all for the legalization for Cannabis in NSW to be put in movement and commence before the end of 2024. Further to this i am for sensible yet highly liberal regulations to be put into place towards the legalization for Cannabis in NSW. I feel the benefits of a positive push for this liberation and fair free public usage also needs to come with a vast informed information pack to be advertised publicly regarding the pros and cons for the usage of cannabis in a sensible manner. Cannabis is a god given gift which is literally part of us, and all creation, and should be something that the Australian Government should freely push and advertise for a greater good in all manners and for all people and for all purposes in a positive aspect.

Thank you for your attention and service.
