Please let us grow our own. I really can't afford everything these days I'm starving cause I got no money I got cancer and meds cost But if I can grow my own I could afford to eat and get meds still. I need the healthiest pain meds. And this is it. Big pharmaceutical drugs don't react with me dry well. But. This does. I know it's strange it I'm strange. Cause of my mum. I got birth defects so. I'm not like everyone else and this way of treatment is actually working for me atm but probably would hell if I could get RSO in Australia too. Like. That cures people and isn't that what we all want. CURES. And it does work just look at all the good great stories out there people lived on let me live on let me grow my own please I beg you

P.s. I pray. No one you love ever goes through this. Cause. Is terrifying. Thank you again
