

**Submission  
No 256**

**INQUIRY INTO IMPACT OF THE REGULATORY  
FRAMEWORK FOR CANNABIS IN NEW SOUTH WALES**

**Name:** Ms Elissa Smith

**Date Received:** 14 May 2024

---

My legal Medical Cannabis use has been used a form of coercive control by my ex and justification for his claims of financial abuse against himself and parental alienation abuse. This has affected all members of my family including my children and my sister who has cancer. We all now suffer from PTSD and are still subjected to the violence of alienation of family. This includes homelessness and social isolation as well as financial abuse. This is a loophole of the justice system that allows abuse of partner and children under legal loopholes in family court.
