To whom it may concern !

Cannabis & Hemp have been an integral part of our life here on Mother Earth, for thousands of years ! They are important for health, building materials, paper & clothing ! Hempcrete should be used to make low cost housing for the homeless, being also fire proof for safety ! Cannabis oil is helping many people to sleep & to mitigate pain & nervous disorders !

I believe that they have been under a false stigma & that the industry needs support to service the millions of people benefitting from their GOD given gifts !
