**INQUIRY INTO IMPACT OF THE REGULATORY
FRAMEWORK FOR CANNABIS IN NEW SOUTH WALES**

Name: Name suppressed

Date Received: 15 May 2024

Partially
Confidential

What is the point. Of criminalising the mere minute microscopic presence of an invisible microscopic amount of cannabis. For such a minor microscopic minuscule amount innocent people are losing their driving licences jobs careers dignity and life... alkaline because police want to make the point that it is illegal to drive with the mere presence of cannabis.

Police in the old days used to be about public safety.

Who cares about the minute presence of anything.

Focus on public safety.

If driving under provable influence. Then perform a sobriety test.

It is legal to drive under the drowsy influence of opioid benzodiazepines etc.

Legal.

But illegal to drive under no influence. Illegal to drive safely. With the new presence of cannabis.

I mean seriously the police and justice system are more concerned about their money, budgets and retaining punitive power.

They are destroying our public trust in justice.

Legalise safe driving with cannabis to prescribed patients.

Legalise recreational driving with cannabis. Just do sobriety test.

Legalise the seeking if recreational cannabis.

A gvt cannabis tax like America will add billions of useful incineration dollars to fund healthcare unemployment housing and road works.

Common sense needs to prevail.

This issue is desperately overdue.

So do the right thing
