**INQUIRY INTO IMPACT OF THE REGULATORY
FRAMEWORK FOR CANNABIS IN NEW SOUTH WALES**

Name: Mr Kit Laughlin & Associates

Date Received: 15 May 2024

Cannabis needs to be legalised, simply because it's the second most commonly used drug in Australia. By not legalising it, our system criminalises (at least potentially) the majority of citizens.

This committee will hear complex submissions from a wide variety of positions that will recommend use of all forms of cannabis from medical to recreational. All are what people want.
