**INQUIRY INTO IMPACT OF THE REGULATORY
FRAMEWORK FOR CANNABIS IN NEW SOUTH WALES**

Name: Mrs Mariah Fraser

Date Received: 16 May 2024

Australia is behind when it comes to cannabis use. I see no drug but a herbal remedy used for thousands of years to treat a variety of illnesses.

NSW would be taking a great step if they legalised cannabis. I believe if we changed the laws that the crime rate would go down. It's been proven to work, you can look at statistics from other places that have legalised.

Change the laws! Get with the times!
