**INQUIRY INTO IMPACT OF THE REGULATORY
FRAMEWORK FOR CANNABIS IN NEW SOUTH WALES**

Name: Name suppressed

Date Received: 17 May 2024

Partially
Confidential

I use cannabis daily to treat diagnosed ADHD , Tourette, general anxiety depression disorders, spinal spondylolisthesis. The current cost of medical cannabis has a server impact on me financial to tune of \$12000 per annum. If the people where allowed this medication could be simply produced at home either indoors or outdoors for the individuals need

Out of the various medications I am prescribed cannabis cause me the least amount of problems excluding the high costs. I have been using cannabis of for over 20 years daily because it is safe and effective as it all ways has been. The current laws are outdated and I am confident of the peoples understand and change of rhetoric has already occurred.

I do not believe that cannabis effects my ability to drive however the current laws surrounding having THC present in my system gives me anxiety just thinking about. I have no accurate way of knowing if its legal or not for me to drive. The current driving laws unfairly renders me unable to drive most of the time.
