**INQUIRY INTO IMPACT OF THE REGULATORY
FRAMEWORK FOR CANNABIS IN NEW SOUTH WALES**

Name: Anthony George

Date Received: 22 July 2024

Cannabis laws are the most disgusting laws in Australia.. a plant that kills no one.. all these clowns who commit big crimes than cry cannabis in courts are full of shit criminals who find it better to say cannabis than the heroin cocaine meth they were really on... cannabis stops people committing crimes.. we are all born with an endocannabinoid system but shhhhh don't tell people. I have stage 4 hydronephrosis and severe PTSD OCD severe depression suicidal all the time.. cannabis stop my pain to the point I can fully function and also stops suicidal thoughts in their tracks...now without cannabis as police took it.. keep raping my home and life while they tease me... I've tried many meds but I go crazy on them.. pain pills harm my kidneys.. what am I meant to do.. I've gained kg since police charged me with commercial supply when I never sold or gave away a dam drop.. I'm going through the traumatising courts system and more than likely go to jail because I was healing myself.. I was jogging 2 hours a time and riding bicycles and weights on cannabis. Now I'm peeing every 20 mins.. in agony and want to die because the government are smiling assassin who murder us slowly.. it's weird on cannabis my kidneys function much better and I feel no pain.. now I'm in agony every day is that fair? Once cannabis was compulsory to grow in Australia till some scum bag in a suit decided to be our commy watch dogs.. thank them for my death sentence and pain and suicidal thoughts and courts and raped home and jail they impose on people over a plant that killed no one.. covid Jabs lose compared to cannabis why aren't they all screaming to ban that? Absolutely disgusting what cannabis users have had to endure in Australia... so many suicides because of the government's overreach... it's like white people enjoy spanking others all the time to do as they say over a miracle plant. Thank you mam for hearing me out..
