INQUIRY INTO PUBLIC TOILETS

Name: Ms Suzanne Louden

Date Received: 7 November 2024

Please build public toilets in all of our parks, it's insane going to a park for a picnic or simply to be outdoors, when you have to leave when you need a toilet. Also, we need public toilets in our main streets again. We should not have to go into a pub to use a toilet, I've almost had accidents, as I'm sure many have, trying to find a cafe with a toilet, let alone one with a toilet that will allow you to use it. Also, stop wasting money and space on these stupid automated self cleaning single toilets! The wait times are enormous, Sydney Park for example has 2 of these stupid toilets in the space that could house a men's and women's block of toilets plural! It's nothing to stand in line for 10 to 15 minutes waiting. There's a very busy playground beside them, children can't wait that long, as can many of us grown ups. The old style toilet blocks with actual ventilation allowing fresh air in are much better as well as easy to clean
