RSPCA took away my healthy beloved birds and were planing it the whole time by talking to each other about what value the bird is worth on resale and if it was mirco chipped they broken the leg of my rare expensive native Australian emerald dove, killed my cockatiel and Denied her specialist vet treatment the vet they have isn't qualified clearly or know anything about animals, made a budgie sick in their care, crushed native finches to break their bones on purpose and trying to put the blame on me and completely gone silent the ones they left behind got rechecked by a actual vet specialist who has 6 degrees in birds and exocit and none of them have parasites, broken bones, no deadly disease and are completely healthy and actually a great weight. RSPCA wacol needs to be shut down and lock on its gates
