**INQUIRY INTO PROPOSED ENERGY FROM WASTE
FACILITIES**

Name: Name suppressed

Date Received: 31 October 2025

Partially
Confidential

If some text appears garbled, you can ...

Please do not put the energy from waste incinerator at Parkes NSW as one thing I love about living in the country is the clean country air that we breath, all the information that is told to us because the government wants to take the clean country air from us by burning Sydney's rubbish here, it will affect food products grown here, water supplies, the stench will turn people away from here including people that come to the Elvis Festival, and also it will affect residents health. Lots of people have talked about moving from here if they do put it here, talk about killing a beautiful country town.

From a Parkes Resident that wants her town to stay the way it is as I love to breath the beautiful country air the way it is now, with no pollutions. Come on council, stand up and be counted ,most residents do not want it, stand by your community.
