**INQUIRY INTO PROPOSED ENERGY FROM WASTE
FACILITIES**

Name: Name suppressed

Date Received: 26 October 2025

Partially
Confidential

Good afternoon, I am writing to you today about the waste incinerator proposal in Parkes.

I have been raised in this beautiful town from 2 years of age and grew up simply in a town at the time that was a pleasure to grow up in.

From schooling to tafe to jobs I was very proud to grow up here.

I have great concern about the proposal of the incinerator as I now have grandchildren growing up in our town. Some of my family are on farm property which is a greater concern, especially when wanting to pass it down to the next generation. We have all spoken of this situation of the proposed incinerator and would not jeopardize mine or my familys health after hearing of the varied information of this proposal.

I myself would sadly consider selling up my property and moving away from a town that has been my home for nearly 60 years.

This doesn't sit well with me as I'm getting older and would have to start elsewhere again.

We went and supported the information evening conducted at the local leagues club.

It was neither for or against but instead very informative.

I feel this decision of the waste incinerator was made out of greed and with no consideration for our residents, farming community and local produce.

Our council in my opinion has sold us out as a community and this makes me extremely uncomfortable.

Please consider my submission with care as I am considering leaving our town of Parkes in the wake of this decision to the build a waste incinerator so close to such a great community.

Thank you for listening to my plea.
