Parliamentary Inquiry Submission

From: Age 8

Location: Trundle, NSW

To: The Parliamentary Inquiry into Energy from Waste Incineration in NSW

Dear Members of Parliament,

My name is _____ and I am 8 years old. I live on a farm near Trundle with my family. We have animals and we love our clean air and open skies. I am writing because I am very worried about the plan to build an Energy from Waste incinerator at Parkes.

If the incinerator is built, it will make smoke and other things that come out into the air. Those emissions can travel a long way, even to our farm. I don't want to breathe in dirty air because it can hurt our lungs and make people sick. I like playing outside and helping with the animals, and I want to keep breathing clean, fresh air.

I also have a lot of cousins who live in Parkes — eleven of them! I don't want them to get sick from breathing dirty air either.

I am also worried about the environment and our animals. The smoke and ash could fall on the grass, and then our animals might eat it and get sick. We care a lot about our animals — they are part of our family. The plants, the birds, and the soil could all be harmed too.

Please don't let the incinerator go ahead. We need to look after our air, our farms, and our animals so kids like me and my cousins can grow up healthy.

Please don't take away my right to a clean and healthy environment.

Thank you for listening to me.

Sincerely,

Age 8, Trundle NSW
