**INQUIRY INTO PROPOSED ENERGY FROM WASTE
FACILITIES**

Name: Name suppressed

Date Received: 26 October 2025

Partially
Confidential

My name is _____ and I am 9 years old and live on our family farm at _____ NSW.
I go to the _____ and I am in _____. Our school is 6km from the incinerator and
it could affect all the students and teachers that work and go to the school. If it did make us sick
I would feel terrible.

I think we should all stand together and be against the Parkes Energy From Waste incinerator. We
should fight for what is right. Parkes shouldn't be a dumping ground for Sydney's waste just
because we have less people that live here.

Energy from waste is not good for the environment and it could make us sick. I'm worried about
my health and my family's health including our pets and livestock.

On our farm we grow barley, wheat, canola and we have sheep and one alpaca. I don't want our
food and crops to be less healthy or to hurt people who eat them.

I don't think the Parkes Energy from waste incinerator should be here as our clean air can turn
into dirty and disgusting air making us sick and unwell. It could give us cancer. The chemicals
that are left over after burning the rubbish can settle in our tanks and dams and make us ill.
Wouldn't you feel bad if you made someone else ill?

Instead of putting the incinerator in Parkes you should put it in Sydney as its their rubbish. Its not
fair to put it out here.

I think we should get better at reusing and not throwing away our waste.
