<b>Key assumptions made in the policy</b>	
Does the policy relate to a previous announcement? If yes, which announcement?	
What assumptions have been made in deriving the financial impacts in your estimated costing? <i>(See checklist)</i>	Labor will abolish section 94 local infrastructure charges for non-government schools. This charge, which adds around 10 per cent or more to the cost of building a new school, is largely passed on to parents. Labor will also engage with independent and Catholic schools from the beginning of the planning and rezoning process, in order to deliver new schools where they are needed.  Expected to have nil impact on the operating balance of the NSW Government.
Is there a range for the costing or any sensitivity analysis that you have undertaken?	No.
Are there associated savings, offsets or, in the case of a revenue proposal, offsetting expenses? If yes, please provide details.	..
Are there significant costs or savings <b>outside</b> the forward estimates period which should be considered in costing this policy? <sup>3</sup>	..

<b>Administration of policy</b>	
Intended date of implementation:	1 July 2019
Intended duration of policy <sup>4</sup> :	Ongoing.
Who will administer the policy (e.g. Government entity, non-government organisation, etc.)?	Office of Local Government.
Are there any specific administrative arrangements for the policy that need to be taken into account (e.g. agreements between different levels of government)?	Changes to legislation may be required.
Are there transitional arrangements associated with policy implementation?	No.

<sup>3</sup> Particularly important for large projects with long lead times, policies with a delayed timetable for implementation, or policies where up-front investment is required to achieve long term savings.

<sup>4</sup> Where a policy is intended to be ongoing, please indicate "ongoing" in the space to the right
