

Election Costing Request Form

Details of request	
Party:	Liberals & Nationals Government
Name of Policy:	Open Spaces
Date of request:	Updated 31 January 2019 (Original sent 31 January 2019)

Description of policy	
Summary of policy (please attach copies of relevant policy documents and include information on what the policy aims to achieve):	<p>We will invest a total of \$150 million for new and improved public parklands, to create a network of connected regional parks and gardens across Sydney.</p> <p>\$50 million will fund 8 already identified projects to turn existing Government owned lands into new parks or embellishing existing parks with better facilities, at locations including Hurstville, Ermington, Penrith, Beaumont Hills, Leppington, Appin, Frenchs Forest and Carramar.</p> <p>An additional \$100m will be available to secure and expand additional green space and to further enhance existing parklands.</p>
Has the policy been publicly released yet?	No

	2018/19 \$'000	2019/20 \$'000	2020/21 \$'000	2021/22 \$'000	Total \$'000
Impact on GGS expenses					
Impact on GGS revenue					
Impact on General Government Sector (GGS) net operating result ¹					
Impact on GGS capital expenditure ²					
Impact on GGS net lending/borrowing					

Note: Has the policy been costed by a third party?
If yes, can you provide a copy of this costing and its assumptions?

Key assumptions made in the policy	
Does the policy relate to a previous announcement? If yes, which announcement?	No
What assumptions have been made in deriving the financial impacts in your estimated costing? <i>(See checklist)</i>	<p>\$100m in funding already allocated, under the Government's Strategic Open Spaces Policy</p> <p>An additional \$50 million to be provided to enhance this program and fund the 8 identified projects. Additional funding will be allocated equally over 4 years.</p> <p><i>Administrative costs to be absorbed by DPE.</i></p>
Is there a range for the costing or any sensitivity analysis that you have undertaken?	No. Fixed allocations to projects.
Are there associated savings, offsets or, in the case of a revenue proposal, offsetting expenses? If yes, please provide details.	No

¹ Negative for a saving that reduces expenditure

² Negative for a reduction in capital expenditure.

Are there significant costs or savings outside the forward estimates period which should be considered in costing this policy? ³	Last year of funding to be provided in 2022/23.
--	---

Administration of policy	
Intended date of implementation:	2019/20 onwards
Intended duration of policy ⁴ :	4 years
Who will administer the policy (e.g. Government entity, non-government organisation, etc.)?	Department of Planning and Environment.
Are there any specific administrative arrangements for the policy that need to be taken into account (e.g. agreements between different levels of government)?	No
Are there transitional arrangements associated with policy implementation?	No

If the policy is mainly an expenditure⁵ commitment	
Demand driven or a capped amount:	Capped amount.
Eligibility criteria or thresholds:	N.A.

If the policy is mainly a revenue commitment	
Transaction based or capped:	
Thresholds and/or exemptions:	
Collection method:	
Additional expenditure associated with collection:	

If the policy is mainly a capital costs⁶ commitment	
Nature of Capital Spending	
Type of work, size and capacity:	
Proposed start and completion date of work:	
Intended construction schedule/cashflow:	
Associated asset sell off (if any):	

³ Particularly important for large projects with long lead times, policies with a delayed timetable for implementation, or policies where up-front investment is required to achieve long term savings.

⁴ Where a policy is intended to be ongoing, please indicate "ongoing" in the space to the right

⁵ Expenditure is operating expenses, e.g. salaries, interest cost and grants. Expenditures are fully included in the impact on operating balance.

⁶ Capital costs differ from expenditure in that only depreciation will be included in the impact on operating balance.

Recurrent Impacts	
Offsetting expenditure savings:	
On-going maintenance, depreciation and operational expenses:	
Third party funding involvement:	
Delivery model ⁷	

Checklist for key assumptions (please be comprehensive and include all relevant assumptions).

Assumptions could include, but are not limited to, questions such as:

- What is the expected community impact?
- How many people will be affected by the policy?
- What is the likely take up or other behavioural response you expect?
- Is there a cap on total spending proposed, a funding formula, resource agreement or other mechanism of this nature associated with the policy?
- Will third parties have a role in funding or delivering the policy (e.g. Commonwealth Government)?
- Will funding/program cost require indexation?
 - If yes, do you have any assumptions about the index that should be applied?
- What assumptions have you made about costs of administering the policy?
- Will additional staff be needed in the agency responsible for the policy?
 - How many and at what approximate levels?
- Are there other resources required?
- Are you assuming administrative costs will be absorbed within the agency?

Please note that:

- The costing will be on the basis of information provided in this costing request.
- The PBO is not bound to accept the assumptions provided by the requester. If there is a material difference in the assumptions used by the PBO, the PBO will consult with the requester in advance of the costing being completed.
- Where the details of the policy costing request differ from the announced policy, the costing will be on the basis of the information provided in the costing request.
- These guidelines are intended to facilitate requests for costing election policies. Persons preparing such requests who wish further assistance are invited to contact the staff of the Parliamentary Budget Office.

⁷ There is a range of possible delivery models, e.g. built, owned and operated by a NSW government agency; built and transferred to a private operator; privately built for public operation; privately built and operated with government assuming risk or providing a guarantee in relation to future income (often applicable to public/private partnership arrangements), and so on. The policy should provide assumptions about the proposed delivery model.
