<sup>2</sup> Negative for a reduction in capital expenditure.

<b>Key assumptions made in the policy</b>	
Does the policy relate to a previous announcement? If yes, which announcement?	Yes, this project is part of the More Trains, More Services project.
What assumptions have been made in deriving the financial impacts in your estimated costing? <i>(See checklist)</i>	This initiative is enabled by upgrading the technology at existing substations along the South Coast in order to unlock the full potential of our existing power infrastructure.  Work on the upgrade is already funded and underway and is expected to be completed by the third quarter of this year.  There are no additional carriages required to operate these improved services (there is sufficient fleet already available).
Is there a range for the costing or any sensitivity analysis that you have undertaken?	No.
Are there associated savings, offsets or, in the case of a revenue proposal, offsetting expenses? If yes, please provide details.	No.
Are there significant costs or savings <b>outside</b> the forward estimates period which should be considered in costing this policy? <sup>3</sup>	No.

<b>Administration of policy</b>	
Intended date of implementation:	From January 2020.
Intended duration of policy <sup>4</sup> :	Ongoing.
Who will administer the policy (e.g. Government entity, non-government organisation, etc.)?	Sydney Trains / NSW Trainlink
Are there any specific administrative arrangements for the policy that need to be taken into account (e.g. agreements between different levels of government)?	No.
Are there transitional arrangements associated with policy implementation?	No.

<sup>3</sup> Particularly important for large projects with long lead times, policies with a delayed timetable for implementation, or policies where up-front investment is required to achieve long term savings.

<sup>4</sup> Where a policy is intended to be ongoing, please indicate "ongoing" in the space to the right

<b>If the policy is mainly an expenditure<sup>5</sup> commitment</b>	
Demand driven or a capped amount:	N/A
Eligibility criteria or thresholds:	N/A

<b>If the policy is mainly a revenue commitment</b>	
Transaction based or capped:	N/A
Thresholds and/or exemptions:	N/A
Collection method:	N/A
Additional expenditure associated with collection:	N/A

<b>If the policy is mainly a capital costs<sup>6</sup> commitment</b>	
<b>Nature of Capital Spending</b>	
Type of work, size and capacity:	N/A
Proposed start and completion date of work:	N/A
Intended construction schedule/cashflow:	N/A
Associated asset sell off (if any):	N/A
<b>Recurrent Impacts</b>	
Offsetting expenditure savings:	N/A
On-going maintenance, depreciation and operational expenses:	N/A
Third party funding involvement:	N/A
Delivery model <sup>7</sup>	N/A

**Checklist for key assumptions** (please be comprehensive and include all relevant assumptions). Assumptions could include, but are not limited to, questions such as:

- What is the expected community impact?
- How many people will be affected by the policy?
- What is the likely take up or other behavioural response you expect?
- Is there a cap on total spending proposed, a funding formula, resource agreement or other mechanism of this nature associated with the policy?

<sup>5</sup> Expenditure is operating expenses, e.g. salaries, interest cost and grants. Expenditures are fully included in the impact on operating balance.

<sup>6</sup> Capital costs differ from expenditure in that only depreciation will be included in the impact on operating balance.

<sup>7</sup> There is a range of possible delivery models, e.g. built, owned and operated by a NSW government agency; built and transferred to a private operator; privately built for public operation; privately built and operated with government assuming risk or providing a guarantee in relation to future income (often applicable to public/private partnership arrangements), and so on. The policy should provide assumptions about the proposed delivery model.

- Will third parties have a role in funding or delivering the policy (e.g. Commonwealth Government)?
- Will funding/program cost require indexation?
  - If yes, do you have any assumptions about the index that should be applied?
- What assumptions have you made about costs of administering the policy?
- Will additional staff be needed in the agency responsible for the policy?
  - How many and at what approximate levels?
- Are there other resources required?
- Are you assuming administrative costs will be absorbed within the agency?

**Please note that:**

- The costing will be on the basis of information provided in this costing request.
- The PBO is not bound to accept the assumptions provided by the requester. If there is a material difference in the assumptions used by the PBO, the PBO will consult with the requester in advance of the costing being completed.
- Where the details of the policy costing request differ from the announced policy, the costing will be on the basis of the information provided in the costing request.
- These guidelines are intended to facilitate requests for costing election policies. Persons preparing such requests who wish further assistance are invited to contact the staff of the Parliamentary Budget Office.
