Description of policy	
Summary of policy (please attach copies of relevant policy documents and include information on what the policy aims to achieve):	<p>Customer abuse of shop workers</p> <p>This policy will increase the consequences for those who assault, threaten and/or abuse a shop worker, through added legislative protection for those customer facing workers required to be involved in this process.</p> <p>This would be done via legislative change through an amendment to the <i>Crimes Act</i> to include a new <i>Division 8C Assaults and other actions against shop workers</i> in Part 3 of the Act.</p> <p>Free safe parking in shopping centres</p> <p>Labor will ease the cost-of-living pressures on essential retail workers and support their safety by enshrining in planning legislation that in large shopping centres that charge for parking at least 15% of the total car parking spaces will be provided free of charge for employees of the businesses in the centre. Large shopping centres are shopping centres where the total of the lettable areas of all the retail shops (whether leased or available for lease) in the retail shopping centre is 20,000m² or more.</p> <p>This does not apply to shopping centres where the Parking Space Levy applies. The existing regulation on those centres will remain.</p>

- Are you assuming administrative costs will be absorbed within the agency?

Please note that:

⁸ There is a range of possible delivery models, e.g. built, owned and operated by a NSW government agency; built and transferred to a private operator; privately built for public operation; privately built and operated with government assuming risk or providing a guarantee in relation to future income (often applicable to public/private partnership arrangements), and so on. The policy should provide assumptions about the proposed delivery model.
