## **Election Costing Request Form**

Details of r	request
Party:	Australian Labor Party (NSW Branch)
Name of Policy:	Currawarna Assisted Living facility in Bombala
Date of request:	13 March 2023

Description	of policy
Summary of policy (please attach copies of relevant policy documents and include information on what the policy aims to achieve):	This policy would provide a combined \$16 million to the Currawarna Assisted Living Group to allow them to re-establish aged care on all levels in Bombala.
	The Currawarna Aged Care facility in Bombala was closed by Southern Cross Care in April 2022 and locals seek to reopen it and repurpose it as an assisted-living service instead.
	The policy would first provide a \$1 million grant to re-open an existing facility which will create an assisted living model for elderly people who can no longer live at home. This is a community proposal which has already fundraised a sum and the grant would go into an operational reserve to get things going.
	The second component would be a \$15 million capital spend contingent on Federal funding of \$22 million to create a 30-bed expansion of the existing residential aged care facility at the Bombala Multipurpose Service run by NSW Health.
Has the policy been publicly released yet?	No.

Key assumptions mad	de in the policy
Does the policy relate to a previous announcement? If yes, which announcement?	No, but this proposal has substantial overlap with this government promise: <u>NSW</u> <u>Coalition promises more than \$15 million to</u> <u>support Snowy Mountains aged care - ABC</u> <u>News</u>
What assumptions have been made in deriving the financial impacts in your estimated costing? (See checklist)	
Is there a range for the costing or any sensitivity analysis that you have undertaken?	
Are there associated savings, offsets or, in the case of a revenue proposal, offsetting expenses? If yes, please provide details.	This policy should be offset from the unallocated and/or reserved balance of the Snowy Hydro Legacy Fund.

- □ Will third parties have a role in funding or delivering the policy (e.g. Commonwealth Government)?
- □ Will funding/program cost require indexation?
  - o If yes, do you have any assumptions about the index that should be applied?
- □ What assumptions have you made about costs of administering the policy?
- □ Will additional staff be needed in the agency responsible for the policy?
  - How many and at what approximate levels?
- □ Are there other resources required?
- □ Are you assuming administrative costs will be absorbed within the agency?

<sup>&</sup>lt;sup>8</sup> There is a range of possible delivery models, e.g. built, owned and operated by a NSW government agency; built and transferred to a private operator; privately built for public operation; privately built and operated with government assuming risk or providing a guarantee in relation to future income (often applicable to public/private partnership arrangements), and so on. The policy should provide assumptions about the proposed delivery model.
